

Expo:3 Survey report on Emerging Trends in low code app development.

Aim:

To study the emerging trends in low code application development and understand how low code platform are changing the software development process.

Emerging tools:

- 1) AI assisted development
- 2) Mobile App development
- 3) cloud Based Development.
- 4) Workflow automation
- 5) Integration with API
- 6) Citizen development

Advantages:

- * Fast development
- * Easier Maintenance.

Result:

The emerging tools in low code app development were survived and understood.
